Re: Docket No. 2007-359-W/S

Dear Mrs. Abercrombie:

Thank you for your letter of October 22, 2007. After Act 175 of 2004, the Commission Staff can no longer communicate with you directly about pending cases such as this one, unless all parties are present, or copied with correspondence. Further, the Commission's former technical duties have now been assigned to a new agency, the Office of Regulatory Staff. Accordingly, I am not able to answer your inquiry regarding a price being considered to pay TESI for inspection of grinder pumps, and how often grinder pumps are required to be inspected. By copy of this letter, I am forwarding your inquiry to Florence Belser, General Counsel for the Office of Regulatory Staff, and I would ask that Ms. Belser please assist you with your inquiry in any way possible. I am sorry that I am not able to assist you personally.

Thank you for your consideration in this matter.

Sincerely,

F. David Butler
Senior Counsel
Public Service Commission of South Carolina

In ew:Docket No.2007-359-W/S

Dear Mr. Butler:

If above hearing is scheduled, please consider my personal request. Since I have a grinder pump, which I purchased, and was installed by the utility company for Foxwood Hills in 1997, known as Mountain Bay Utility Co. Inc., I feel my grinder pump is adequate for my usage. It has a red light that comes on when grinder pump is not operating effeciently. therefore, I should not be required to have an inspection by "TESI". I prefer to call my own plumber for repairs.

My property is posted, and I do not wish "TESI" to TRESPASS.

I feel "TESI" received a rediculous increase to provide water and wastewater service in Foxwood Hills, Oconee County, South Carolina, Docket No. 2004-90 w/S by way of Order No. 2006-292(A) dated May 9, 2006. We property owners of Foxwood Hills were not represented properly, by Asby Fulmer at this hearing. Had the facts been presented to Public Service Commission of South Carolina, that "TESI" was not depositing the annual enhancement fee of \$60.00 for each lot that is not being occupied into the operating and Maintenance Account, excluding as Utility Revenue. I do not believe Public Service Commission would have granted "TESI" this rediculous increase.

Please forward to me a price that is being considered to pay "TESI" for inspection, and how often grinder pumps are required to be inspected.

Thanking you in advance for your cooperation, I am,

Yours truly,

Nell

P.S. I will agree "TESI" does need to do a free inspection of all grinder pumps in the Foxwood Hills Subdivision. Some are not working, and running sewage on the ground, in the woods.
